

CertwoodUSA: StorSystem™ Trays Slim Line Tote Tray Lid: CE1960CL (Slim Line Shown)

Tote Tray Lid Color Options:

Standard Clear

Tote tray lids are only available in Crystal Clear for ease of viewing and safety

Tote Tray Lid Size Options:

Slim Line: Lid fits securely over 3", 6", 9" and 12" Deep Slim Line Tote Trays measuring 12 ¼" W x 16 ¾" L

Additional Sizes:

Wide Line: CE1970CL Tote Tray Lids are available for the 18 ½" W x 16 ¾" L wide line series

Materials:

Optional "shatterproof" lids shall be manufactured from ABS, Acrylonitrile Butadiene Styrene.

Lids shall nest within the top of either the slim line or wide line tote trays creating a seamless horizontal cover, which provides resistance to contamination of the tote trays contents.

Lids shall permit stacking of several tote trays as well as resist accidental falls due to sliding by an integral nesting system. The top face of the lids shall be designed and manufactured to nest a tote tray no less than 7/32" while still providing a ventilation space below the nested tote tray by use of a series a of eight (8), 7/8" long raised tabs.

Lids shall be removable from the tote tray while in the tilted position of the patented Glide & Tilt® Structural Runner system.
